PRESENTATIONS	2023: Stockholm School of Economics (Scheduled), 30th Annual Society for Nonlinear Dynamics and Econometrics Symposium, Applied Young Economist Webinar (Scheduled), Third Catalan Economic Society Conference (Scheduled), 13th Macroeconomics and Survey Data Conference (Scheduled) 2022: University of Mannheim, BSE Jamboree, Essex-Barcelona PhD Workshop, ENTER Jamboree, UAB Macro Club, Central Bank Macroeconomic Modeling Workshop, 47th Simposio de la Asociación Española de Economía (SAEe 2022) 2021: ENTER Student Seminar, Barcelona, UAB Macro Club, ENTER Jamboree (Discussant) 2020: Universitat Autònoma de Barcelona Macro Club, Barcelona	
AWARDS AND FELLOWSHIPS	Research grant 2021 SGR 00194 from Generalitat de Catalunya, Spain, 2022-2024. FPI Fellowship by the Ministry of Science and Innovation, Spain, 2020-2024 Barcelona GSE Severo Ochoa PhD Track Fellowship, 2017-2020	

RESEARCH
EXPERIENCE

Prof. Nezih Guner, Spain
Research Assistant, January 2022 - June 2022

The Economic Journal, Royal Economic Society, United Kingdom
Research Assistant, January 2020 - January 2022

Center for the Study of Organizations and Decisions in Economics (CODE), UAB, Spain
Research Assistant, September 2019 - December 2021

National Council of Applied Economic Research, India
Research Analyst, December 2016 - June 2017
Research Associate, December 2015 - December 2016

Research Assistant for Dr. Shesadri Banerjee, India
Research Assistant, December 2015 - February 2017

TEACHING
EXPERIENCE

Universitat Autònoma de Barcelona, Spain
Teaching Assistant, Macroeconomics II (PhD)
IDEA Graduate Programme
Lecturer: Francesc Obiols, Winter 2020-21
Lecturer: Nezih Guner, Winter 2021-22
Lecturer: Alexander Ludwig, Winter 2022-23

Barcelona School of Economics, Spain
Teaching Assistant, Foundations in Equilibrium Analysis
MSc Macroeconomic Policy and Financial Markets, Autumn 2021-22
Lecturers: Esther Hauk & Hugo Rodriguez

Barcelona School of Economics, Spain
Teaching Assistant, Macroeconomics
MSc Macroeconomic Policy and Financial Markets, Autumn 2021-22
Lecturers: Francesc Obiols & Juan Manuel Figueres

ABSTRACTS

Targeting Inflation Expectations? || Job Market Paper

Abstract: Do inflation expectations respond to changes in monetary policy, namely, Inflation Targeting? Subjective expectations, a survey expectations of professional forecasters for 32 Inflation Targeting countries, and an event study methodology are used to find that countries with price stability as the single objective, have a reduction in short run forecast errors. Moreover, the reduction in forecast errors is the result of a change in inflation and not expectations. The key insight of the paper is that Inflation Targeting does not have a direct impact on short-run inflation expectations. In addition, the change in forecast errors but not expectations lends support to the idea that inflation leads expectations. Finally, the paper also performs a quantitative exercise which finds that the agents attach some weight to the inflation target which central banks can leverage to build credibility ex-post by reducing inflation.

(Dis)Inflation Targeting with Luis E. Rojas

Abstract: Extending the model proposed by Barro and Gordon (1983) by introducing an independent central bank, subjective expectations, and announced intermediate inflation targets this paper aims to explain the disinflation process adopted by the Latin American economies. Specifically, given the introduction of a new independent central bank we ask if the policy of the announced intermediate targets were cheap talk or the targets aided the disinflation process. We hypothesise that announcing intermediate targets reduced the cost of disinflation by reducing the inflation surprises the agents face and enabling agents to learn faster. The reduced surprises also help in developing credibility for the central bank further building the basis for faster learning. Finally, we also show that the cost of disinflation reduces when there are announced inflation targets.

Networked Inflation Expectations: A Closer Look at Professional Forecasters with Gabriela Stockler (Work in Progress)

Abstract: Disagreement among professional forecasters is a well documented feature of inflation expectations. We hypothesise that this disagreement is the result of a network and strategic sharing between forecasters. A preliminary theoretical model with information sharing among agents and rational expectations suggests that full information access leads to forecasts which are close to realised inflation. We now aim to use data on professional forecasters to uncover the type of network.
